Science and common sense alike have long indicated that an engaged student learns better and takes greater responsibility for his or her education. For Goochland County Public Schools, this means placing our students and the realization of their potential at the center of every choice we make. We believe the PK-12 experience should prepare students for a successful life after high school; moreover, school should engage students such that a love for learning is sparked and stoked, challenges are welcomed and met, and every student's achievement is pursued with urgency and clarity.

We want our students and staff to be known for who they are, not just for what they have accomplished. The members of our organization strive to be role models in order to cultivate in our students the desire to have a positive impact on others. Objectives in this goal seek to measure staff and student growth as related to our core values.

In addition to our teachers, our educational infrastructure consists of the smooth and safe operations of maintenance and transportation, health and food service, as well as, human resources, finance and technology.

Setting Direction for Goochland's Schools

On December 10, 2013, the Goochland School Board approved its 2014-2020 Strategic Plan. Over 18 months of work with multiple groups of stakeholders—including school leaders, community members, and students—went into the creation of a new vision, a new mission, a set of five core values, and a set of three strategic goals.

This executive summary outlines the major components of the plan. The board will hear biannually a progress report based on this plan, alongside an annual update to a tactical plan created by the superintendent and his cabinet.

Vision

Inspiring and preparing the next generation to make a positive impact.

Mission

To maximize the potential of every learner.

Core Values

We value **Excellence** and are committed to meeting exceptional standards of growth, achievement, professionalism, character, and personal responsibility.

We value **Creativity** and will emphasize the use of imagination, intellectual curiosity, and human ingenuity in our instruction and work together.

We value **Courage** and will establish an environment in which individuals seek to have a purposeful positive impact, advocating for themselves and others at all times.

We value **Honor** and are unwaveringly committed to the truth, to personal integrity, and to supporting what is right and virtuous and actively rephending what is not.

We value **Optimism** and will seek to be characterized by a positive view of others and a belief that everyone can learn.
